

# What's next for your DOWNTOWN?

Calling all residents,  
business owners, developers,  
community stakeholders &  
elected officials.  
**We need YOUR input!**

## DREAM BIG!

The **Downtown Partnership of Livingston County** is conducting a market analysis study to research:

- ★ **The current condition of the County's downtown districts**
- ★ **Changes occurring within the marketplace**
- ★ **What consumers want from a downtown district**
- ★ **What businesses the downtown market will support**

The goal is to create a Downtown Business Development Strategy to **recruit new businesses** that will **compliment existing businesses** and buildings in Livingston County's downtowns. The analysis will determine **what businesses the people want** and **what the market will support**.

Community meetings are geared towards specific regions of the County. You need only attend ONE meeting, preferably the meeting with a focus on your community, however you are welcome to attend any date/time that works with your schedule.
